

ROSWELL DAILY RECORD.

VOLUME 7.

ROSWELL, NEW MEXICO, TUESDAY EVENING, JUNE 8, 1909

NUMBER 84

SANTA FE GOES WET BY 43 VOTES

Santa Fe, N. M., June 8.—Santa Fe has gone "wet" but by a small margin. Complete returns from the local option election held yesterday show a majority of but 43 votes in favor of continuing the saloons. Two of the four wards of the city gave majorities for the "drys."

MELBA PALMER CO. STILL

DRAWING AT THE ARMORY.

Good sized crowds are coming out every night to witness the performances being put on by the Melba Palmer Stock Company at The Armory. The large, cool hall is an inviting place to go. The company gives good entertainment. The prices are popular. All these things combine to make The Armory a place of interest. Last night the company gave their first production of "A Southern Gentleman," delighting a big audience. The appearance of a real, live baby that was able to smile and cry was the occasion of much interest. The plot is thrilling and is relieved at intervals with light comedy. The same play will be reproduced tonight.

Following the play last night, an informal dance was given by the management, all patrons of the show being invited to remain. The floor was speedily cleared, and the Norvel orchestra, strengthened to six pieces, furnished splendid music. About 25 couples remained and report a most enjoyable hour's dancing. This orchestra is furnishing music at The Armory every night, and adds greatly to the program of the evening.

For Sale.

The Sheridan property on North Main street, 3 lots and adobe house, with splendid artesian well. Call on J. A. B. Bear, Roswell, N. M. 331f

ANOTHER BIG CLASS

FOR MODERN WOODMEN.

The local lodge of Modern Woodmen of America will have another class adoption on next Thursday eve, June 10. It will be remembered that only last month, May 13, Roswell Camp took in 28 members. They are now following this up with about twenty more in another class, made up of some of the best citizens of the town.

The lodge is growing with wonderful rapidity. The Modern Woodmen lodge is now the largest fraternal insurance society in the United States. Following are those who comprise the second class: W. S. Day, R. D. Bowers, R. L. Ballard, G. H. James,

J. D. Kirkpatrick, H. C. Samsel, A. C. Holland, R. L. Rucker, W. G. Welter, J. A. Herbster, W. H. Pearson, Geary Goldsmith, A. L. Zachary, Fred Hoffman, Hayter Cravens, Ed Carmichael and O. W. Hicks.

All members of the society are requested to be present and help to show the new members the way thru the forest and other mysteries connected with Woodcraft.

D. P. Greiner, the district manager states also that he will have a nice lodge at Hagerman about the 1st of July. Twenty-five applicants are already secured for that place.

FOR RENT.—Light house keeping rooms with gas and bath, also bedroom, \$7 and \$8 per month.—309 N. Ky. ave. 8413.

THE USE OF WOOD

FOR PULP IN 1908.

Washington, June 8.—Two hundred and fifty-one pulp mills in the United States used 3,346,106 cords of wood, and made 2,118,947 tons of pulp last year. Spruce has always been the leading pulp wood, and it furnished sixty-four per cent of the total quantity of the wood pulp industry in the last ten years has rendered the domestic supply of spruce insufficient to meet the demands upon it, and consequently importations from Canada have been heavy. In 1908 our pulp mills consumed nearly one and one-half million cords of domestic spruce, and over 670,000 cords of imported spruce making the imports of spruce forty-five per cent of the domestic supply.

Next to spruce, the most important pulp wood is hemlock; 569,173 cords of it were converted into pulp last year. All the hemlock used was of domestic origin, and most of it was produced in the lake States and Pennsylvania. Although now used in less quantity than spruce and hemlock, poplar has long been a standard pulp wood. A small quantity of poplar is imported, but by far the larger portion of the more than 300,000 cords used last year was cut from domestic timber. Spruce, hemlock and poplar made up ninety per cent of the total quantity of pulp wood used. The remainder was supplied by many species, the most important of which were pine, cottonwood and balsam.

The wood used by the pulp mills last year cost them a little more than \$28,000,000, or on an average of \$8.38 per cord, against an average of \$8.21 in 1907. The most costly wood used was imported spruce, with an average value of \$10.60 per cord. The average for domestic spruce was \$8.76 per cord, and for poplar, \$8.04 per cord. The cheapest wood which was used in large quantity was hemlock, the cost being \$6.02 per cord. Owing to the uncertain business conditions the

total consumption of pulp wood in 1908 was nearly 16 per cent less than in 1907, but this did not prevent a considerable increase in the price of wood. The high price of wood is making the manufacturers be constantly on the lookout for cheaper raw material, and one of the most encouraging developments has been the increased use of slab wood and other sawmill waste. The drift in the industry is clearly indicated by the fact that 193,234 cords of mill waste were reported as consumed in pulp manufacture during 1907, while 252,896 cords an increase of thirty per cent were used in 1908.

These statements are based upon a preliminary report of the consumption of pulp wood in the United States in 1908 just issued by the Bureau of the Census. The Bureau of the Census and the Forest Service cooperate in the collection of annual statistics of forest products, and this preliminary report will soon be followed by a bulletin, which will give detailed information upon the use of pulp wood last year in the various states, the cost per cord, the amount reduced by the mechanical sulphite, and soda processes and other facts of interest to the industry.

Attention Knights of Pythias.

All members and visiting brothers are requested to be present at tonight's meeting. There will be rank work in the first and balloting. W. Q. PAWCETT, K. R. S.

Ike Gronsky's Foot Amputated.

The left foot of Ike Gronsky was amputated above the ankle in an operation at St. Mary's hospital this morning. The amputation was made necessary by the presence of gangrene. Mr. Gronsky was reported to be doing as well as could be expected today.

CALL STAR LIVERY for nice rigs for outing and mountain trips.—Telephone 182.—R. B. Jones, prop. 743m.

WANTED:—Gentle driving pony and buggy.—W. S. Abston, S. Ohio St. 2*

GEYER NOW SOLE OWNER

Fordyce C. Geyer has bought the interest of his partner, J. D. Macklin, in the Sanitary Dairy and will continue the business of the firm without interruption. Geyer & Macklin bought the dairy from E. B. Evans about two months ago, and the dairy is still conducted at the Evans farm, east of town. Mr. Geyer is now in full control of the business of the dairy.

COURT HOUSE BONDS

SOLD TO ROLLINS & SONS The county commissioners at their regular meeting today sold to the highest bidder the bonds for Chaves County's new court house, the contract for the sale being subject to the will of the voters in a special election, to be called later. The bonds went to E. H. Rollins & Sons, of Denver, who were represented by Ernest C. Church, Mr. Chapin was present, representing Ullin, Sutherland & Co., of Kansas City, and James H. Causey & Co. of Denver were represented, also. The high and low bidders were only \$150 apart.

In the contract being signed by the bond buyers the following things are specified: The issue is to be \$110,000 due in 20 years after their date, optional for redemption after 20 years, bearing 5 per cent interest payable semi-annually, and both principal and interest payable at some banking house in New York City. Bonds to be delivered at Denver or Chicago and buyers to pay premium of \$4,550. Buyers' attorneys to furnish all instructions for legal procedure of calling election and all acts leading up to the issue, and to furnish blanks for bonds without cost to county. Buyers deposit \$5,000 as forfeit for failure to carry out their part of the contract. County to take no risks on failure of buyers' attorneys to furnish proper instructions as to procedure.

The special election will be called as soon as the proper instructions are received from attorneys.

The law regulating the amount of bonds to be issued by a county, makes it impossible for Chaves county to issue more than \$110,000 for its court house under last year's assessment, which has to be taken. This year's assessment would increase the amount allowed by thirty or forty thousand dollars, but the law prevents any such speculative step, and the commissioners must limit it to last year's tax figures.

For the best printing of all kinds, see the Record Office. Prices right.

ELKS TUESDAY NIGHT. Regular meeting of Roswell Lodge No. 969, B. P. O. Elks, Tuesday night June 8. Lodge opens promptly at 7:30. Full attendance urged. All visiting Elks invited. OTTO BAUMER, E. R.

TO THE DRY FARMERS

Albuquerque, N. M., June 1, 1909.

To the Dry Farmers of New Mexico: The annual session of the Trans-Missouri Dry Farming Congress will be held this year in Billings, Montana, opening October 25th. The Dry Farming Congress has now been given national recognition as an organization of equal standing with the National Irrigation Congress in the development of the West.

There is no section of the West which offers such a wide field for the development of dry farming as does New Mexico. We have a greater area on which the necessary rainfall comes during the growing season than has any other state or territory. It is to the interest of every homesteader, of every owner of dry farming land to aid in developing this great area. In order to develop it we must put its advantages plainly before the people of the Nation and there is no better way to do this than through adequate representation at the Congress at Billings.

In connection with the meeting at Billings there will be held the Second International Exposition of Dry Farming Products and it is in this exposition that we should make our showing from New Mexico.

The Santa Fe Railroad proposes to take an exhibit car from New Mexico to the Billings Exposition. The railroad company will furnish the car, and the exhibits will be transported without cost. All that is required of us is to furnish the exhibits.

The most effective advertising you can do for your district is to see that it has a first class exhibit at this exposition. Not only will it be displayed to hundreds of delegates who will attend this Congress, but it will also go to the great Land and Irrigation Exposition which is to be held in Chicago, November 27th to December 4th where hundreds of thousands of people—the kind we need to help us develop New Mexico—will see it.

In addition to the advertising for New Mexico and your district resulting from a good exhibit a long list of handsome trophies and cash premiums will be offered for prize-winning

exhibits at Billings. A preliminary notice of the premium list and the rules governing competition have been issued as follows:

Preliminary Notice of Premium List.

Rule 1.—All farmers living, where rainfall is less than 20 inches per annum, depending solely upon rainfall to grow and mature crops, are eligible to compete for premiums at this Dry Farming Congress.

Rule 2.—Exhibits shall represent crop season of 1909 and shall not have been grown upon irrigated, sub-irrigated or seepage land.

Rule 3.—All individual exhibits shall have been grown by bona fide ranchmen, stockmen and farmers. The collective exhibits or general display classes are open to any individual, firm, club or community.

Rule 4.—The object of this exhibit is to show various crops grown on non-irrigated lands of the world during 1909. Each delegate to the Congress should, therefore, take a person-

al interest in seeing that his district or section has crop exhibits entered.

Rule 5.—General display classes. These classes shall be open to any individual, firm, club or community.

Rule 6.—Specials. A class for special exhibits will be made up later, depending upon the premiums offered therein.

W. X. Sudduth, I. D. O'Donnell, W. B. George, Committee on Exhibits.

A few of the premiums thus far offered are as follows:
Pony threshing machine, for best shock Turkey Red Winter Wheat, consisting of not less than five or more than twelve bundles each, to be taken as they came from the machine; given by W. X. Sudduth.

Life Membership in the Dry Farming Congress, for the best exhibit from farm garden; given by Peter Hoe.

One 12-16 Moline Disc Harrow, for dry farming potatoes; given by Yegen Implement Company.

Acme Harrow, for best display of sweet potatoes, peanuts and June corn; given by Huse-Yates Co.

Lady's \$40 solid gold watch, stem-winder, choice Elgin or Waltham movement, full jeweled, for the best exhibit made by woman homesteader; given by Roberts, the Jeweler. First prize.

\$20 Eastman camera and \$5 photographic supplies, for the best display made by woman homesteader; given by Chapple Drug Company. Second prize.

Through the Security Warehouse Company, Billings, full chilled walking plow, No. 111, for the best specimen Canadian peas, open to world; given by Oliver Plow Company.

\$150 cash to be given in ribbons and small cash prizes; given by Billings Brewery.

The above is but a preliminary list of prizes. The full list and information as to the assembling of the exhibits will be given out within a few weeks.

The important thing is to grow the product now—grain, feed stuffs, vegetables, fruit—in order that your district will be prepared to enter the competition and that New Mexico may be well represented at this Exposition.

Take this matter up with your Farmers' Union; discuss it with your neighbors, with a view to getting a first class exhibit from your district. The money cost to you individually will be practically nothing. Every homesteader who comes into your district adds to the value of your property. Let us take advantage of this opportunity to show the homesteaders who will be at Billings and at the Chicago Exposition what New Mexico has to offer.

The Bureau of Immigration will be glad to answer any inquiries, from individuals or associations, as to the Dry Farming Congress and Exposition. Address H. B. Henning, Secretary, Albuquerque, N. M.

The ball game Wednesday will begin at 3 o'clock, sharp. There will be something doing at Amusement Park. 3312.

Barney Sheridan left this morning for his home in Paola, Kansas, after spending five days here with old friends while looking after business affairs. He was a guest at the home of Mr. and Mrs. C. E. Mason.

Fred Wilson, Jones and Stains will assist the High School team Wednesday afternoon. What must the rest of the team be? 3312.

CASES ON CRIMINAL DOCKET UP TODAY.

District court worked today and a portion of the time yesterday on the criminal docket. A number of cases were disposed of, some yesterday, others today and still others several days ago, as follows:

Bertha Miles pleaded guilty to stealing the diamonds of M. A. Bassist.

Harry Deves pleaded guilty to robbing a saloon at Kenna.

Encarnacion Miranda pleaded guilty to stealing guns from the store of Hills & Dunn.

Miguel Padillo pleaded guilty to larceny and receiving stolen property.

Mike Murphy was tried yesterday on the charge of robbing Jim Harde-man and was found guilty.

W. S. Barcroft pleaded guilty to selling mules of Mr. Williams, of Hope. Ralph Van Valkenburg pleaded

Charley Tuttle was on trial today on charge of aiding prisoners to escape.

SANTA FE EXTENSION

Amarillo, Tex., June 5.—At the Santa Fe offices here it is said that work will begin immediately on the Santa Fe extension from Texico, N. M., to Coleman, Texas, the contract for which was let yesterday to the C. H. Sharp contracting Company of Kansas City.

From information obtained at the offices it is believed the new line will run from Clovis through Texico to Plainview, then south to Lubbock, thence in almost an air line to Coleman.

With a slight deviation the road is expected to pass through Farmer, Hale, Lamb, Hockley, Lubbock, Crosby, Garza, Kent, Scurry, Fisher Nolan, Taylor and Coleman counties.

It is the intention of the Sharp Company to sublet its contract to many smaller contractors and work will begin simultaneously at many points along the line.

Plainview will in all probability be made the main distributing point during the construction work.

Report From Kansas City.

Kansas City, Mo., June 5.—Following the opening of its Belen cut-off last March, the Santa Fe has let the contract for a new line that will close a still more important gap between Coleman, Texas and Texico, N. M. The work was awarded to the C. H. Sharp Construction Company of Kansas City, which also did the Belen work, and will cost about \$3,000,000. When completed this latest cut-off will give the Ripley road a direct line from Galveston on the Gulf to San Francisco on the Pacific, virtually a new trans-continental route.

"The entire length of the new line will be very heavy work," said Wright Smith, secretary of the Sharp Company today, "and we will begin at once."

Starting from Coleman, Texas the northern terminus of the Santa Fe's Galveston line, the cut-off will probably traverse the Texas counties of Coleman, Runnels, Taylor, Nolan, Fisher, Scurry, Borden, Garza, Lubbock, Hockley, Lamb and Bailey, as far as Texico on the boundary line of New Mexico. The air line from Coleman to Texico is about 270 miles and as the new survey does not swerve widely from a straight line, its length will approximate 300 miles.

It will cross the Orient and the Texas and Pacific roads at Sweetwater and will connect with the Northern branch of the Santa Fe, which passes through the Panhandle. This line branches south from the main line at Canyon City, Texas and is already built as far as Plainview. It will later be extended as far as Lubbock in order to reach the cut-off.

High School vs. Elks, at Amusement Park Wednesday afternoon. Decidedly the best game of the season, so far, is expected. Don't miss it. 312.

WHEN A PERSON

whether a man, woman or child, goes to town on a shopping tour, that person is sure to seek the most reliable trading center. If it's dry goods, groceries, drugs, or what not, the idea is to get the most for the dollar. When one is offered one hundred pounds of Standard Granulated Sugar for \$5.75, the amount sounds like a bargain, or a 50 lb. sack of the best known brand of flour for \$1.80,—then another bargain is sounded.

Some people do not stop to count the cents saved by following up the daily ads of live merchants, but quite a few do, and lots of them gather in the dollars which are saved on monthly accounts as well as monthly cash expenditures. Those people that are saving the cents and dollars are the ones that will eventually become independent. Again, other illustrations might be offered, such as an 80 ct. can of K. C. Baking Powder for 60 cts., or a 10 pound pail of Premium lard for \$1.50, or 3 pgs. of N. B. C. Crackers or cakes for 25 cts. Lemons, nice and juicy, used to sell for 40 cts., now a dozen costs 20 cts. Oranges are no longer a luxury when 40 cts. buys 12 nice large ones. Evaporated fruits in dust proof cartons easily sold at 40 cts., but how much easier and faster at 30 cts. Canned tomatoes in large tins were supposed to be cheap at 15 cts., until a large can can now be had for a dime.

Perhaps it is no use to further impress upon your mind the savings offered but it might not be amiss to state that ever since the "new system" of the Joyce Fruit Co. has been in operation, many a dollar has been and is being saved the people of Roswell. Their reward is an increase in business, measured two fold.
